

SPECIAL NOTE: Again, return envelopes will not be sent out with each month's billing. If you are in need of return envelopes, please stop by the office and we will provide a year's supply to you.

"Rumors to Rest"

There has been some crazy rumors going around and we would like to put them to rest. Keep in mind that decisions made and directions the marina heads will ultimately benefit you the member and assist in making the marina a better facility for you the boater as well.

1. We know storage rates will increase next season. At this time it is undetermined to what extent but we feel comfortable saying it will be around a dollar a foot.
2. Trailer storage will no longer be free of charge for wet slip customers, these trailers take up valuable space in dry storage.
3. Everyone will be treated equally and respectfully in terms of storage arrangements. Members will pay for the storage they have and utilize. A few members are getting "deals" because of "special" circumstances at the time of their storage contract. We feel good in saying that you will get what you pay for and enjoy at Roosevelt Lake Marina.

This Month's Headliner... Fuel in the Sewage System

That's correct. Someone "accidentally" filled their waste tank with fuel a few weeks ago. If only they would have asked for some help from our staff our spoke with management to assist them with their situation. No, instead of doing that they helped themselves to the pump out and pumped all the fuel out into the dock sewage system. Did they realize this is a crime and can be punishable along the lines of rape and murder? The government takes environmental laws extremely seriously these days. Luckily for them nobody found out or has said a word about this "accident". We are also lucky our electric room next to the sewage holding tank didn't spark and blow up the front of the marina. Nobody was hurt by this but our reputation, our reputations as boaters'. Yes, everyone knows this happened, The Forest Service, the Waste Water Treatment Plant Operators and now everyone on the marina. We did get this handled. After a few thousand dollars later and a shutdown of the Waste Water Plant tanks, we are back in service. We don't write this to embarrass the culprit, but to let them know what asking for help may have prevented. If anyone knows who did this and was the contributor to this exercise there is a reward for it. If it was you, I would suggest to please come forward and we could quietly discuss this incident. There is a bill for the clean up and all of the members will be paying for it one way or another. Let's all hope it will never happen again. Thanks, Management.

Member Notes and Considerations

Several members are taking over the docks. I mean you can't even walk by their slip without going through and around all kinds of stuff. We need you to please be considerate of all members and not take over the main walkways near your slip. If we can't drive a cart through or a dock cart you have too much on the dock...Please be considerate and reasonable when lounging in these areas...

"Power to be Off" We still do not have a date as to when we will be taking the power down for a few days. I assure you we will post this for everyone's information when the date is confirmed. Thanks for your cooperation and understanding.

Boat Lifts for Sale and New Services to Come

RLM is now a dealer for Boat Lifts. Keep your investment dry and still enjoy a wet slip. Call Dan with any inquires.

New Services... We will soon be offering hull cleaning for those boats that can be recovered by trailer. Pricing is yet to be determined. Call Dan with any inquires.

Bar "Closed"

The dockside bar will be closed until next season. Labor Day weekend was great and we look forward to serving you all again in the Spring. Lake Burgers will still be available in the store for you to burn on your own.
